You can also associate a Liferay user with a swimlane by email address as shown in the following XML snippet. 4.

Technical Explanations - Liferay Liferay's Web Content Management system allows non-technical users to publish content to the web without having advanced knowledge of web technology or programming of any sort. Liferay WCM empowers you to publish your content with a simple point and click interface and it helps you to keep your site fresh. Introduction to Web Content Management – Liferay Help Center Liferay's Documents and Media library provides a mechanism for storing files online using the same type of structure that you use to store files locally. You can use it to store files of any kind; it serves as a virtual shared drive, and can mount and browse external repositories. Introduction to Document Management – Liferay Help Center However, you can customize the modifiable portions of personal sites through Liferay's permissions system by removing permissions from roles. To disallow all portal users from modifying something, remove the relevant permission from the User role. Historically (prior to Liferay 5.1), only power users received personal sites. User Personal Sites – Liferay Help Center Liferay Faces is an umbrella project that provides support for the JavaServer™ Faces (JSF) standard within Liferay Portal.
