essential data elements for complete reporting of malignant tumors and optimal patient care. The CAP Biomarker Reporting Protocols are intended to provide reporting guidance for commonly ordered biomarkers and are not required for accreditation purposes. Cancer Protocol Templates | College of American Pathologists The American Thoracic Society and the Infectious Diseases Society of America have updated their guidelines on diagnosing and treating community-acquired pneumonia (CAP) in adults. Here are some of the changes from their 2007 recommendations, published in the American Journal of Respiratory and Critical Care Medicine : Guidelines on Community-Acquired Pneumonia

Updated community-acquired pneumonia (CAP) guideline (1), there have been changes in the process for guideline development, as well as generation of new clinical data. ATS and IDSA agreed on moving from the narrative style of previous documents to the Grading of Recommendations

Assessment, AMERICAN THORACIC SOCIETY DOCUMENTS CAP

guidelines should address a comprehensive set of elements in the process of care rather than a single element in isolation. (Strong recommendation; level III evidence.) 3. Development of local CAP guidelines should be directed toward improvement in specific and clinically relevant

outcomes. Infectious Diseases Society of America/American

Thoracic ... Practice guidelines are systematically developed statements to assist practitioners and patients in making decisions about appropriate health care for specific clinical circumstances. Attributes of good guidelines include validity, reliability, reproducibility, clinical applicability, clinical flexibility, clarity, multidisciplinary process ... Practice Guidelines - IDSA Enthusiasm for developing this set of CAP guidelines derives, in large part, from evidence that previous CAP guidelines have led to improvement in clinically relevant outcomes [17, 19–21]. Protocol design varies among studies, and the preferable randomized, parallel group design has been used in only a small minority. Infectious Diseases

Society of America/American Thoracic ... Community-acquired pneumonia (CAP) is a common serious illness that is associated with considerable costs, morbidity, and mortality. 1 In the EPIC study, a contemporary, large, population-based, and recent study performed in the United States, the annual incidence of CAP requiring hospitalization was estimated to be 24.8 cases per 10,000 adults. 2 A leading cause of hospitalization among ... Management of Community-Acquired Pneumonia in Adults Background: This document provides evidence-based clinical practice guidelines on the management of adult patients with community-acquired pneumonia. Methods: A multidisciplinary panel conducted pragmatic systematic

reviews of the relevant research and applied Grading of Recommendations, Assessment, Development, and Evaluation methodology for clinical recommendations.
