Computer Algebra In Scientific Computing The 22nd conference on Computer Algebra in Scientific Computing, CASC 2020, will be held on Sept. 14-18, 2018 in the city of Linz, Austria. Invited Talks We are proud to present exceptional researchers who will give invited talks at CASC conference. Home | Computer Algebra in Scientific Computing This book constitutes the refereed proceedings of the 21st International Workshop on Computer Algebra in Scientific Computing, CASC 2019, held in Moscow, Russia, in August 2019. The 28 full papers presented together with 2 invited talks were carefully reviewed and selected from 44 submissions. Computer

computer science, computer algebra, also called symbolic computation or algebraic computation, is a scientific area that refers to the study and development of algorithms and software for manipulating mathematical expressions and other mathematical objects.

Although computer algebra could be considered a subfield of scientific computing, they are generally considered as distinct fields because scientific computing is usually based on numerical computation with approximate
