In our ecology unit, we are using both formative and summative assessment. Varieties of formative assessment are implemented in our lessons so that

we, as teachers, can see the progress and understanding of the material of our students. This is important for us to know how our lessons are going or what information needs to be re-taught or emphasized so that the students are achieving the learning goals we have set for them. Assessment - Ecosystems Unit This unit on ecology helps students develop the idea that plants, animals, and fungi form a system of interdependent parts, with each part dependent on the other parts for its material nourishment. By the end of the unit, teachers will be able to guide their students to the conclusion that organic matter is cycling through the living world.
