If Junqueira's basic histology provides everything you need for your course, so does Gartner's histology atlas and textbook. These books are relatively similar in scope and size with Gartner's being around 550 pages long.. Like Junqueira's and most other histology textbooks, this book lays out the basics and general tissue types before going through the organ-specific histology. Best histology books for medical school - Young Scrubs The second edition of Functional histology, by Jeffrey Kerr, strikes a good balance. The book has numerous clear, vivid light micrographs, excellent electron micrographs, and superb drawings and diagrams aimed at describing and explaining the organisation and function of body tissues. Traditionally laid out in systems, the text tells an interesting
