Guided Discovery Method Of Teaching The term “Guided Discovery” refers to a teaching and learning environment where students are actively participating in discovering knowledge. The goal of discovery is to facilitate deep learning on the part of the students – learning that has its basis in fundamental understanding and often arises from viewing a problem from multiple perspectives. The pedagogical underpinning is that if the students discover the knowledge, they will, in the process, have created and added to their own ... Guided Discovery as a Teaching Method | Open Learning Guided-discovery problems

can be incorporated into lecture, lab, and field courses. They fit beautifully into the exploration phase of the learning cycle approach to teaching (Brown and Abell, 2007). Thus they work best when they are assigned before any lectures or readings on the topic.

How to Use Guided Discovery Problems

The guided discovery approach is one that is fundamentally linked with the constructivist school of education theory. If you do not want to introduce a brand new methodology to your classroom, you can incorporate elements of the guided discovery approach to your teaching, allowing children to find the answers themselves.
