Mathematical optimization - Wikipedia Mathematical Programming Computation (MPC) is a new journal of the Mathematical Programming Society. The field of mathematical programming concerns the minimization and maximization of real-valued

functions, subject to constraints on the variables. MPC - Mathematical Programming Computation Mathematical programming, and especially linear programming, is one of the best developed and most used branches of management science. It concerns the optimum allocation of limited resources among competing activities, under a set of constraints imposed by the nature of the problem being studied.
