reading. This is an environment where they learn at their own individual pace and with their own choice of activities from numerous possibilities. Montessori Education for Early Childhood The Montessori Method of Education, developed by Italian physician Maria Montessori, is a child-centered educational approach based on scientific observations of children. The method views the child as naturally eager for knowledge and capable of initiating learning in a supportive, thoughtfully prepared learning environment. It attempts to develop children physically, socially, emotionally and cognitively. Montessori's method has been used for over 100 years in many parts of the world. Although Montessori education - Wikipedia The
