OA Framework was designed with durable personalization capabilities. Durability of OA Framework personalization is largely attributed to the declarative architecture and the object-oriented approach underlying the implementation. Declarative UI component definitions are stored in the form of meta-data in a database repository. Oracle Application Framework Personalization Guide Oracle E-Business Suite applications are currently shipped with Oracle's corporate Browser Look-and-Feel (BLAF), which supplies a rich set of components for web-based applications. Although OA Personalization Framework provides you with the ability to change the look of a page by changing user interface (UI) component properties, adding UI components, and so on, it does not allow you to create and apply an entirely new Look-and-Feel to an application. Oracle Application Framework Personalization Guide To construct a fully configurable page, use OA Extension, as described in the Oracle Application Framework Developer's Guide.
