... Although most U.S. Catholics accept the idea of evolution in some form, a substantial percentage of American adults reject the scientific explanation for the origins of human life, and a number of religious groups in the U.S. maintain that Charles Darwin's theory of evolution through natural selection is not correct because it conflicts with their views of creation. 5 facts about evolution and religion | Pew Research Center To explain a religious belief in evolutionary or naturalistic terms does not ipso facto invalidate the belief that deity exists. Of course, if one assumes that a belief is attributable to a cognitive faculty that is not aimed at truth, then the underlying mechanisms involved in our appropriating the belief would compromise the warrant of the belief. Religion Explained: The Evolutionary Origins of Religious ... Very often, it seems as though evolution and religion must be locked in a desperate struggle of life and death -- and for some religious beliefs, perhaps that impression is accurate. However, the fact that some religions and some religious dogmas are not entirely compatible with evolutionary biology does not mean that the same must be true for all religions or religion generally, nor does it mean that evolution and atheism somehow require each other. The Relationship Between Evolution and Religion The origins of life or the universe can never be tested or repeated in any laboratory. The fact is that the origins of the universe and of life are outside of the parameters of the theory of evolution. In the first place, there could have been no supposed evolution without matter and without the first appearance of life. How Do Christians Explain Evolution? Instead they use
