| eBay The first two volumes of Vagabond so far are fantastic. Definitely a tall cut above the average. I can even compare it across genre and say it's a lot better than Akira Toriyama's Dragon Ball (one of my top choices before I read Vagabond). Vagabond is very poetic and alive. There

are free ebooks available for adults and kids, and even those tween and teenage readers. If you love to read but hate spending money on books, then this is just what you're looking for.
